The opening of the LMU for representatives of the Central African Republic (CAR) took place at Kosygin University

23.11.2026

The opening of the «Summer Multidisciplinary University», organized within the framework of the activities of the Russian-African Network University (RAFU), took place at Kosygin University. This year, the participants of the educational program were 10 representatives of the Central African Republic (CAR), including the press secretary of the Minister of Justice of the CAR, leaders of public movements, journalists, university teachers and students of the Russian House in Bangui, the representative office of Rossotrudnichestvo.

The program is implemented in the format of short-term additional training in the field of «Preparation and Management of Technological and Socially Oriented Projects». The participants will become acquainted with modern approaches to project activity, master practical management tools and apply the acquired knowledge in the development of their own projects.

First Vice-Rector — Vice-Rector for Educational Activities of Kosygin University Sergey Gennadyevich Dembitsky addressed the guests with a welcoming speech:

«We are glad to see representatives of the CAR at our university. I am confident that your participation in the Summer Multidisciplinary University will become an important step in your professional development and will open up new opportunities for international cooperation. Together with the university's teachers, you will take part in improving the educational process – developing a real project using modern methods. I wish you fruitful work, interesting discoveries and acquaintance with the culture of Russia!»

Director of the Institute of International Education Olga Gennadyevna Shults emphasized the

significance of the program for the development of international academic cooperation:

«The Summer University is an important part of the strategic project – the Russian-African Network University. The project, aimed at strengthening Russian-African interaction in the sphere of education, science and culture, is a bridge between our countries in strengthening humanitarian and professional ties.»

After the ceremonial opening, the guests were given a tour of Kosygin University. The participants visited the leading educational centres and laboratories and got acquainted with the expositions of the Vyacheslav Zaitsev and Valentin Yudashkin museums. In addition, the guests visited Red Square, where they became acquainted with the historical and cultural heritage of the Russian capital.

The educational program will last until 22 November 2026. Ahead, the participants will have practical classes, work on projects, acquaintance with the university infrastructure and excursions to the sights of Moscow.
