

The Tambov State Technical University hosted a Summer School for Zimbabwean university teachers

10.07.2024

Within the framework of the Summer School for colleagues from Africa, TSTU professors developed and successfully implemented the professional development program «Improving the quality of engineering teacher training in accordance with the principles of sustainable development», including lecture courses in various areas of construction, architecture, agricultural engineering, information technology and telecommunications.

The students also had an excursion educational and cultural programme 'The History of the

introduction of engineering thought in the architecture of the Russian countryside' in the Museum Complex 'Aseev Estate', a sightseeing tour 'Cultural and architectural heritage of small towns of Russia' in the city of Morshansk, visited the Tambov Regional Museum of Local Lore, took part in an art master class organised by the Tambov Regional Art Gallery.

«Under the aegis of RAFU and within the framework of the Agreement on joining Tambov State Technical University to the Consortium signed in 2023, this year TSTU will intensify academic, scientific and cultural Russian-African interaction in the field of engineering education and technical sciences, which has great prospects for scientific, technical and academic interaction between the two countries, » commented Elena Sergeevna Mishchenko, Vice-Rector for International Activities.
